

NOTICE OF STUDY COMMENCEMENT

Highway 15 and County Road 42 Intersection Improvements, Township of Rideau Lakes Detail Design and Class Environmental Assessment Study (GWP 4315-06-00)

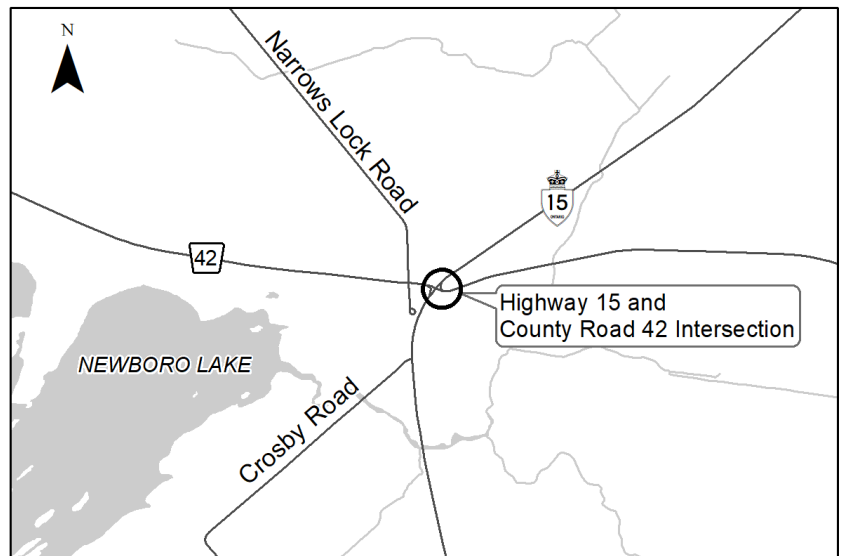

The Project

The Ministry of Transportation, Ontario (MTO) retained Dillon Consulting Limited (Dillon) to complete the Detail Design and Class Environmental Assessment (EA) for improvements to the intersection of Highway 15 and County Road 42, located at the Village of Crosby in the Township of Rideau Lakes, United Counties of Leeds and Grenville. Following completion of the previous Preliminary Design phase and considering comments received, a roundabout has been selected as the preferred intersection alternative.

The Process

The project is being completed in accordance with the MTO *Class EA for Provincial Transportation Facilities (2000)* as a Group "B" undertaking. Group "B" projects are considered approved, subject to compliance with the Class EA. This study will build upon the previously completed update to the Preliminary Design, as documented in the Transportation Environmental Study Report Addendum (March 2023).

A Design and Construction Report (DCR) will be prepared to document the Detail Design phase of the study. Notices will be sent to those on the project contact list when the DCR is available for a 30-day public comment period. Please visit the project website at www.Hwy15Crosby.com for project updates.

Comments

You are encouraged to visit the project website, where project information including study notices, background information and TESR Addendum are available. The project website will be updated as the detail design progresses. Comments on the project may be made at any time by contacting one of the team members below or by sending an email to the project team at Hwy15Crosby@dillon.ca.
